LIVING IN LEASIDE

THE LEASIDE

Leaside is one of the most popular neighbourhoods in Toronto. It is also one of the more expensive and luxury real estate areas of the city, comprised mostly of upper-middle-income families who value the rich charm this neighbourhood has to offer. The Leaside is surrounded by multi-million dollar homes. And just steps away are amenities such as The Leaside Smart Centre, consisting of 500,000 square feet of retail, food and other conveniences.

NEXT-LEVEL GREEN LIVING
WITH GEOTHERMAL TECHNOLOGY

The Leaside is helping usher in the era of zero carbon emissions in Toronto – a goal set by the Toronto Green Standard (TGS). The development team’s goal is to incorporate sustainability and green initiatives within The Leaside. To that end, heat and air conditioning are provided by the leading-edge Aura™ GeoExchange system by Subterra Renewables.

HOW AURA™ WORKS

Ten feet below the ground, the temperature remains the same throughout the year. Aura™ works by transferring the heat between the building and the earth, using ground loops that circulate fluid.

In winter, the system extracts heat from the earth to generate warm air for the building, and in summer it's the reverse; heat from the building is transferred from the building to the ground.

SAVE MONEY

The Aura™ GeoExchange system is an economical form of heating and cooling. Monthly resident fees are both predictable and structured to protect residents against fluctuating, conventional energy prices.

ZERO EMISSIONS

Aura™ is the most energy-efficient cooling and heating system in the world and does not generate any greenhouse emissions.

PROVEN TECHNOLOGY

Aura™ has enhanced 7,380,000 square feet of living space in the GTA and is proven technology you can rely on year-round.

MAXIMIZE MARKET VALUE

With Aura™, the Leaside represents an incredible opportunity to invest in the next generation of sustainable living and maximize market value.

FUTURE PROOF

The Leaside is future proof, ready for the new net-zero world and part of the solution. Experience the feeling of knowing you are participating in the city's transition to new, better technology.

STREAMLINING YOUR LIFE

The Leaside streamlines every day by offering a number of convenient features. From smart home technology to safe places to park your vehicle, every moment of your day has been thoughtfully considered.

SMART HOMES FEATURE

For the ultimate convenience of residents, The Leaside offers a suite of innovative smart & security technology features. Life is streamlined and simpler with this effortless system, activated through your smartphone. Enjoy keyless building entry for you and your guests, safe parcel delivery, concierge communication amenity bookings, control of your suite temperature & more.

UNDERGROUND PARKING

Security-monitored, below-grade parking at The Leaside makes your departures & arrivals safer. As well, within the well-lit garage, your vehicle is secure and sheltered from inclement weather year-round.

PARCEL LOCKER

Whenever parcels arrive for you, if you are not home, they will be safely & securely stored for you in the convenient parcel locker storage room. You can then retrieve them at your leisure.

BOUNDLESS CONNECTIVITY

THE LEASIDE

With its setting in a green, leafy neighbourhood and its first-class connectivity, The Leaside merges the human needs for tranquility and for stimulation. Laird station on the new Crosstown LRT is within a stone's throw of home, and if you're a bicycling enthusiast you can make use of one of the 60 bike parking spots at the station. From there, it's only three stops to Eglinton station on the Yonge subway line, where you can either revel in the dining and entertainment mecca of Yonge and Eglinton or travel south to downtown. Drivers can get to the Don Valley Parkway quickly from The Leaside, and it's only a few minutes into downtown or north to the 400 highways for trips north to the cottage.

TORONTO AT A GLANCE

SAFEST CITY IN THE WORLD

The fourth iteration of the Economist looks at 60 cities across 76 indicators, covering digital, health, infrastructure, personal, and environmental security.

#1 "BRAIN GAIN" DESTINATION

Toronto created over 57,000 more jobs than graduates over the previous five years, making it the #1 "brain gain" in North America.

GLOBALLY RECOGNIZED

Toronto has been recognized as a global city of the future, and has been celebrated for its economic potential, higher education, technology and business, and for the quality of life it provides.

STABLE REAL ESTATE MARKET

Canada is one of the fastest-growing countries in the world. In addition, record immigration and a growing population continue to bump prices and demand upwards. The federal government has a target of bringing in 1.45 million immigrants over the next three years, most of whom will reside in Ontario.

FAST GROWING TECH MARKET

Greater growth than New York, Seattle, and Boston combined. Third strongest tech market overall according to CBRE's tech talent report in North America.

A TOP 10 MOST LIVABLE GLOBAL CITY

Thirty different factors were considered, including stability, healthcare, culture and environment, education and infrastructure.

SCARCITY

Lack of supply in Toronto's housing market remains high. The demand outweighs supply, keeping dollar value up and contributing to all-time low vacancy rates. This also heightens rental demand.

BLEND OF CULTURE AND ENTERTAINMENT

Aside from being a financial hub, the city offers countless restaurants, parks, trails, and public facilities, scattered all over the city. Toronto is walkable, bikeable and convenient.

800,000

Businesses with diverse mix of companies and ventures

180

Languages spoken. One of the world's most multicultural cities

6.4M

In GTHA population. Fastest-growing region in North America

1.2M

People immigrating over the next three years to Canada

\$11.3B

In arts and culture to the city's GDP

\$4.4B

In venture capital investments in 2020

8th

Most global 500 head offices in the world

8

FIERA REAL ESTATE

Fiera Real Estate is a leading investment management company with offices in North America and Europe and a team of over 130 employees. The firm globally manages over \$8 billion of commercial real estate through a range of investment funds and accounts as of December 31, 2022. It is an entrepreneurial team working within an institutional framework, enabling clients to benefit from a unique combination of creativity and innovation supported by industry-leading expertise and investment analysis – the best of both worlds. The highly diverse nature of its portfolio – in terms of both geographies and types of properties – combined with a range of best-in-class strategies provides investors with exceptional opportunities to diversify their exposure and customize their investment experience within the real estate asset class.
